

Gaming Grants Paid to Community Organizations - Year-to-Date (by community) - 2011/12

Generated: October 17, 2011 by the Gaming Policy and Enforcement Branch, Province of British Columbia
Report period: April 1, 2011 to October 17, 2011 (Government fiscal year 2011/12)

Description and Notes:

Community organizations may be eligible for government community gaming grants to support their programs and services. Payments for approved grants are made throughout each government fiscal year, and the timing of the payments depends on the grant category / sector. Interim year-to-date reports are reasonable representations of all grants paid up to a certain point in each year, but payment corrections and other factors make them less accurate than the final, year-end report.

- As announced on March 8, 2010, two gaming grant programs (direct access and bingo affiliation) were consolidated into the community gaming grant program for fiscal year 2010/11. This report contains information about grant payments made under the new grant sector and subsector structure, as well as payments made under the previous structure to fulfill prior multi-year grant commitments.
- Some grant payments to organizations may not appear in this report if there were payment errors and corrective adjustments are being made. These payments will appear in later interim reports or the fiscal year-end report.
- Unused grant funds that were returned during the fiscal year are not shown in interim reports, but will be shown in the fiscal year-end report.
- Note: some organizations receive grants in more than one category; therefore the number of unique organizations receiving grant payments is usually less than the number of grants
